GOAL:

TO BUILD A FUNCTIONAL LIBRARY MANAGEMENT SYSTEM(LMS) FOR ACADEMIC INSTITUTIONS USING FULL STACK WEB DEVELOPMENT TOOLS.

- HAVING A USER-FRIENDLY INTERFACE
- CREATING A LOGIN SYSTEM TO TRACK THE RECORD OF BOOKS
- ABILITY TO SEARCH BOOKS THROUGH DATABASE

- This is an overview of the Technologies we are planning to use for the project, distributing the work among our team members to ensure a smooth work flow.
- We plan learn the basics of these softwares, enabling us to have an understanding of it and creating a skeleton website while adding more and more functionality too it as we go on.

ROADMAP :
